

## **PRESS RELEASE**

### **Key amendments in PFRDA (Exits and Withdrawals under the NPS) Regulations, 2015**

**New Delhi, 19 December, 2025** - In furtherance of its mandate to promote old-age income security and protect the interests of subscribers, [the Pension Fund Regulatory and Development Authority \(PFRDA\) has notified amendments to the PFRDA \(Exits and Withdrawals under the National Pension System\) Regulations, 2015.](#)

The amendments are primarily aimed at the non-government sector (All Citizen Model and Corporate Sector), applicable uniformly to both Common Schemes and the Multiple Scheme Framework (MSF), while also rationalizing certain provisions for the government sector. Finalized after extensive stakeholder consultations, these measures aim to provide subscribers greater flexibility, choice, and autonomy in investment decisions and managing their accumulated pension wealth, recognizing that non-government NPS participation is voluntary. Clear and well-structured exit provisions are expected to encourage entry and sustain participation by balancing subscriber needs and pension objectives across different stages of their life cycle.

Overall, the amendments reflect evolving subscriber needs and seeks to make the NPS more inclusive, responsive, and subscriber-friendly, while safeguarding long-term retirement income security. The key areas that have been revised are outlined below in a comparative tabular format:

Sl.	Earlier stipulation	Revised stipulation
<b>I. Non-Government Sector (All Citizen Model and Corporate Sector)</b>
